

## Commercial Maintenance Cleaner

The Floorsafe CMC (Commercial Maintenance Cleaner) is a specially manufactured floor cleaning product designed to be used as part of the Floorsafe Anti-Slip System.

It contains a balanced blend of cleaning surfactants and Floorsafe's active anti-slip grip ingredient. The product when diluted easily removes deposits of grease, fats, oils & soaps whilst maintaining the grip effect achieved from the initial anti-slip treatment. Using this product on a regular basis will keep the floor hygienically clean and maintain the anti-slip treatment in premium condition for many years

### Directions for daily use:

- 1) Mix 1 part of CMC with 30 parts of water.
- 2) Mop or brush the mix solution over the floor.
- 3) Squeegee, vacuum or mop to remove waste solution.

Dilution for regular use: Mix 1 part of CMC with 20 parts of water

Dilution for monthly use: Mix 1 part of CMC with 10 parts of water

Dilution to revitalise treatment: Mix 1 part with 5 parts of water.

5 Litres of CMC cleaner when diluted with 30 parts of water will clean approximately 2000 square metres of floor surface.
