

## ANTI-SLIP ALUMINIUM STRIP – Product Code FL50

**2.5mm x 50mm fine line serrated aluminium strip**

**Available in clear or black**

**Anti-slip safe to AS/NZS 4586:2004**

**Lengths available up to 3620mm or custom cut to required size.**

### **Introduction**

Quality Australian made, our FL50 aluminium strip has been specially made for installation over new and existing steps, ramps and stairways. Being only 2.5mm thickness, this safety product can be installed on top of surfaces without causing a trip hazard or recessed into steps. It is applicable where pedestrian safety areas are a particular concern especially in wet areas.

### **Ultimate In Anti-Slip Safety**

This product provides the highest possible P5 safety rating and is particularly suitable for external wet areas. The finished product exceeds the requirements of the Australian/New Zealand Standards AS/NZS 4586:2004

### **Length**

- Available in 3620mm lengths or cut to required sizes

### **Colour**

- Clear or black

### **Fixing**

Apply quality adhesive to both surfaces or apply adhesive and screw fix.
